

# JCOIN Common Measure Specifications

## Follow-up Staff Measures

Last revised 3/4/2020

*This document provides the specifications for core and optional JCOIN measures to be administered at study follow-up intervals. Optional questions are highlighted in yellow; the rest are considered core items. Note that this document is a collection of measures; it is not a survey or an instrument. JCOIN Research Hubs should integrate these measures into the other data collection processes for their study protocols. **Separate documents cover baseline measures for staff and baseline/follow up measures for participants..***
