JCOIN COMMON MEASURE SPECIFICATION – revised 5/21/2020

*This document provides the specifications for core and optional JCOIN measures. Optional questions are highlighted in yellow and text indicator; the rest are considered core items. Note that this document is a collection of measures; it is not a survey or an instrument. JCOIN Research Hubs should integrate these measures into the other data collection processes for their study protocols. **The specifications for the baseline participant measure and the baseline/follow-up version of the staff measures are in separate documents.***

This document contains two sections:

- I. Record and Linkage Variables
- II. Baseline Client-level Items

A separate document will be created with core/optional follow-up measures for clients and staff.

I. Record and Linkage Variables

Time	Section/ Variable(s)	Question stem
Baseline and 3/6/12-month follow-up	XHub.	Code for hub
